Creating New Pathways

engageVR

Physiotherapy

Our Physiotherapists work with our clients to enhance their physical function, improve movement, reduce pain, improve balance and much more with the aim of improving or maintaining function.

Why see an ENGAGE VR Physiotherapist

Conduct a comprehensive assessment of your general and cardiovascular health, mobility, physical status, balance and functional activity.

Create an individualised rehabilitation program and strategies to assist you with the areas identified that can assist your function.

Provide specific treatment programs that can assist with pain, lack of movement, flexibility or strength to improve your function.

Provide strategies to assist with symptoms associated with neurological disorders such as muscle wasting, muscle activation or muscle spasm.

Provide advice on specific equipment to assist your mobility or function eg. Walking sticks or walking frames.

Provide advice on appropriate footwear for your condition.

Our Client Population

Clients who have experienced/are recovering from:

- Stroke
- Parkinson's Disease
- Traumatic Brain Injury
- and other neurological conditions
- Motor Neurone Disease
- Huntington's Disease
- Multiple Sclerosis

FAQ

HOW DO I GET STARTED?

Call us today to book an initial assessment. Alternatively, you can book a meet and greet to meet our team and look around the clinic

DO I NEED A REFERRAL?

Most clients do not need a referral unless you are claiming through Lifetime Care and Support, Medicare (EPC) or Workers Compensation.

WHAT COSTS ARE INVOLVED?

Costs vary depending on how you fund your rehabilitation, however, we accept and are approved for NDIS, Aged Care, GP (EPC), Lifetime Care and Support, Workcover, DVA, private health funds and self-referrals.
