Long Covid Management

There is early research out that Long Covid may infact effect the brain with reported respiratory, cognitive, memory and concentration concerns.

Why see ENGAGE VR

Our multidisciplinary team conducts a thorough assessment to really understand your goals and specific areas of need.

We work with you to identify the high priority health, physical and functional areas that we can assist you with.

Our multidiscipliary team can assist with the recovery from Long Covid, targeting the physical and emotional elements for a successful recovery. Rehabilitation commonly focuses on targeting the deconditioning effects of the disease, which may include neurological and respiratory impairments.

Our Physiotherapy and Exercise Physiology team can assist with providing appropriate respiratory retraining using our Powerbreathe system and general physical conditioning.

Our Speech Pathology team can assist with rehabilitation to improve swallowing issues and other speech related symptoms.

It is important that rehabilitation commences as soon as possible, once a patient is considered ready for this intervention.
