Oncology Management

Engage VR Rehab provide an experienced, multidisciplianary team to help/assist/support you before, during or post treatment. Our aim is to help you stay as active as possible, lessen the side effects of the disease and treatment, maintain independence and improve the quality of your life.

Why see ENGAGE VR

Our multidisciplinary team conducts a thorough assessment to really understand your goals and specific areas of need.

Our programs are tailored specifically to each individual and, if you ask our existing clients, are a whole lot of fun. While the emphasis is on effort, we also offer the opportunity to create a much needed distraction from daily treatment or the receovery process.

The Physiotherapy team can assist with any physical concerns, joint aches or pains and strategies to assist with maintaining or improving mobility and flexibility.

Our Exercise Physiolology team can assist with providing a suitable exercise program that manages muscle weakness, improves mobility and your motivation to be active.

The Engage VR Speech Pathology team can assist with speech, language or swallowing issues that may present with some specific cancers.

Our Occupational Therapy team can assist with equipment recommendations and strategies to enable you to complete your activities of daily living.
