Creating New Pathways

engageVR

Parkinson's Disease

Integrating technology within Parkinson's rehabilitation allows us to create an engaging experience that helps enhance neuroplasticity and provide industry leading management.

Why see ENGAGE VR

Our multidisciplinary team conducts a thorough assessment to really understand your goals and specific areas of need.

We work with you to identify the high priority health, physical and functional areas that we can assist you with.

We create individualised programs that target Parkinson's syptomology including, but not limited to, the use of respiratory training, task specific training, virtual reality and dual tasking to improve reactivity, gait and balance.

We utilise the latest technology such as Virtual Reality (VR) and Functional Electrical Stimulation (FES) when required, to provide state of the art treatment and improve engagement.

Our speech pathology team are trained LSVT Loud practitioners and can assist to increase voice quality and volume, articulation of speech, vocal tones and the ability to be understood.

We assist and manage feeding and swallowing difficulties throughout every stage of disease progression.

Tell me more about ENGAGE VR

Engage VR Rehab is a multidisciplinary health organisation that specialise in the management and rehabilitation of complex care conditions. We offer a range of evidence-based treatment modalities, typically provided in Allied Health. We also incorporate a range of technologies such as Virtual Reality (VR), Functional Electrical Stimulation (FES), Icaros Core, and Powerbreathe® to name a few.

FAQ
