Dementia Management

Dementia has a varying impact on people's lives depending on the symptoms, expression and progression of the disease. One of the may reasons why it is so important that the rehabilitation is very, specific to the individual and their unique presentation.

Why see ENGAGE VR

Our multidisciplinary team conducts a thorough assessment to really understand your goals and specific areas of need.

We work with you to identify the high priority health, physical and functional areas that we can assist you with.

Our programs focus on best practice interventions for the management of Dementia signs and symtpoms. This may include physical activity and management of communication using a range of speech, language, memory and cognitive activities.

Our Occupational Therapy team can assist with equipment recommendations, home modifications and guidance with activities of daily living.

The Engage VR Speech Pathology team can assist with speech issues and cognitive issues and provide great strategies for you to better manage your symptoms.

Our Physiotherapy and Exercise Physiology team can assist with maintenance of strength, mobility and general physical conditioning.
